Application for Student Volunteers

Volunteers must be an undergraduate or graduate student interested in the marriage and family therapy field. We are looking for four student volunteers for the conference that will span both full days of the conference: Friday April 20 from 9 am to 7 pm and Saturday April 21 from 8 am to 5 pm. You will be asked to help with registration, assisting with speaker needs, helping attendees around buildings and campus, set up or take down, and any other needs as directed by the conference committee. You will also be able to attend and take part in most parts of the conference. As a volunteer you will have free admission to the conference on both days and this includes breakfast and lunch provided. Please complete all items below and the conference committee will be reviewing applications and making a selection soon after the deadline of March 18.
